Handling

- Handle the DVD only at the outer edge or centre hole
- Do not touch the shiny surface of the DVD
- Do not bend the DVD
- Be careful not to scratch the DVD when placing it in the player tray or back in the case
- Make sure the DVD is properly seated in the player tray before you close it

Care

- Store the DVD upright in a protective case immediately after use
- Keep the DVD away from radiators, heaters, sources of extreme heat or humidity, pets, small children and other destructive forces
- Exposure to bright sunlight and other sources of ultraviolet light may affect recordable DVDs as they use light-sensitive dyes
- DVDs are not affected by magnetic fields, so it is ok to leave them near your speakers

Cleaning

- Remove dirt, foreign material, fingerprints, smudges and liquids by wiping with a clean cotton fabric in a straight line from the centre of the DVD towards the outer edge
- Do not use strong cleaners, abrasives, solvents or acids
- Do not use canned or compressed air as this may themally stress the DVD
- To remove stubborn dirt or material use water, water with mild soap, DVD cleaning detergent, isopropyl alcohol or methanol
